Internship Coordinator
Robi Axiata Ltd
Gulshan 1, Dhaka 1212

Subject: Application for the Internship Position at Robi Axiata Ltd

Dear Concerned,

I am writing to express my interest in the internship position recently advertised by Robi Axiata Ltd. As a business and technology enthusiast with academic training in both fields, I believe that an internship at your esteemed organization would provide me the ideal platform to apply my skills and gain valuable industry experience.

I am currently a final-year BBA student majoring in Technology Management at North Bengal University of Technology (NBUT). I have maintained a CGPA of 3.87 out of 4.00. My academic focus has included areas such as data-driven decision-making, digital transformation in business, and marketing analytics. I have worked on several academic projects involving customer behavior analysis using Python and Excel, and developed mock business models as part of my coursework.

Beyond academics, I serve as the Assistant Editor of our department's digital magazine "TechTalk 2025," where I manage student submissions and edit content related to emerging business technologies. I also led the sponsorship team for our annual business fest "Technoverse 2024," where I negotiated with brands and managed communications. These experiences have helped me strengthen my skills in teamwork, negotiation, and professional communication—skills I am eager to bring to Robi. In addition, I recently completed an online course in Data Analytics from Coursera, which covered data visualization using Tableau and business problem-solving using analytics. I am deeply motivated to learn how a leading telecom company like Robi leverages data, technology, and creativity to serve millions across the country. Being part of your internship program would allow me to contribute actively while learning from the best in the industry.

I am passionate about integrating technology with customer-centric solutions and believe Robi's dynamic and forward-thinking work culture aligns perfectly with my career goals. I hope to grow through this experience and contribute meaningfully to your projects and team.

Please find my resume attached for your kind consideration. Thank you for taking the time to review my application. I look forward to the opportunity of discussing my candidacy in more detail.

Sincerely,

Zayan Hasan
